## A INTRODUCTION

### 1 BACKGROUND

The Project was awarded by the Flood Plan Coordination Organization (FPCO) represented by the Kreditanstalt für Wiederaufbau (KfW) to the Joint Venture Rhein-Ruhr Ingenieur-Gesellschaft mbH as lead partner, Compagnie Nationale du Rhône, Prof.Dr. Lackner & Partners and Delft Hydraulics in association with Bangladesh Engineering and Technological Services Ltd. (BETS) and Desh Upodesh Ltd. (DUL).

The Consultancy Agreement was signed on October 14, 1991. The date of commencement was fixed on December 1, 1991.

On the occasion of a project appraisal mission from 26.01.1993 to 07.02.1993 by KfW and CFD the results and recommendations of the Planning Study were discussed in tripartite meetings of FPCO, KfW/CFD and the Consultant. The study's overall concept was agreed to by FPCO and KfW/CFD.

As to the sequence of the activities, however, there was a preference to have the general discussion on river training prior to any further investigations and to formally finalize the FAP 22 Planning Study with that meeting. It was therefore agreed to obtain an Experts Opinion on Jamuna River Training/AFPM strategies by holding a discussion with a team of reputed experts in the field of river training and river basin management, and the Consultant was requested to make respective arrangements.

The other result of the discussions was the installation of the Final Stage of Phase I, after finalizing the main services of the Planning Study (Phase I) on 31.10.93 and before starting the Test and Implementation Phase (Phase II) on 01.06.1993. The Final Stage of Phase I served to prepare modified work and staffing schedule for Phase II, to receive and discuss the comments to the Draft Final Report, to prepare the respective answers and to issue the Final Report and to include the relevant comments in the Final Report. The costs of the Final stage of Phase I are covered by the balance of the funds for Phase I.

The Letter to Proceed into the Test and Implementation Phase (Phase II) was issued on May 15, 1993 and the Test and Implementation Phase started on June 01, 1993.

The so called EXPERT DISCUSSION on river training of FAP 22 was held in Dhaka on 2nd, 3rd and 4th of November 1993.

The present Report of the Test and Implementation Phase (Phase II) covers the period from June 01, 1993 to March 31, 1994.

### 2 IMPORTANT DATES AND EVENTS

## B ADMINISTRATIVE SUBJECTS

### 1 STAFFING

#### 1.1 Professional Staff Fielded

As per the consulting Agreement the fees for the professional staff will be paid in accordance to the time actually spent on the project. The cost for local support staff is included in the office running costs.

The assignment periods of the expatriate and the local professional staff for the reporting period are given in Part 1, Table 1 and Table 2 and Part 2, Table 1 respectively.

#### 1.2 Staff Schedule

B. Part 1, Table 3 and B. Part 2, Table 2 of the present report shows the staffing schedule as per Letter to Proceed.

There are only minor changes in the course of executing the Project, details are given below.

Modification of staff arrangement:

**2 SUBCONTRACTS****2.1 General**

The Consulting Agreement (Letter to Proceed) provides for four subcontracts to be executed under the Project, namely

1. Topographic, cadastral and bankline surveys (item 5.1)
2. Construction and test running of a Filter Test Rig (item 5.2)
3. Physical modelling of sites (item 5.3)
4. Subsoil investigations (item 5.4)

In addition special physical modelling of falling apron has been provided (item 4.1).

These model tests on falling apron have been partly executed through the Laboratory division of our joint venture partner CNR in a small bypass channel of the river Rhone in France.

**2.2 Subcontracts Concluded**

To date the subcontracts 3 and 4 have been concluded. Subcontract 1 is scheduled over several periods, two survey campaign has been concluded so far. Subcontract 2 the construction of the Filter Test Rig has been concluded, the test runs will start on May 1994.

The main data are as follows:

Item	Subject	Subcontractor	Amount paid up to 31.03.94		Remarks
			Tk	equivalent to DM	
5.1	Survey's:				
5.1.1	1st campaign Kamarjani	Hydroland	336,500	14,374.20	Finalized

## C FINANCIAL ASPECTS

### 1 GENERAL

- The Consulting Agreement provides for payment of the costs incurred by 4 quarterly installments for each consultancy budget year.

For each budget year an interim balance for the services rendered during the year shall be submitted. At the end of the project a final balance based on the interim balances shall be submitted.

To enable the Client and Funding Agencies a financial follow up and control of the Project during its execution the Administrative and Financial Report shall provide both an informative review of approximate costs accrued so far and a forecast on possible substantial changes of final costs, so far as anticipated at the date of reporting.

For easy reference the status of expenditures will be given in accordance to the tables of Attachment 3 of the Letter to Proceed and exactly along the same items, showing the quantities and amounts of the Agreement and additionally the quantities and amounts accrued until the respective date(s). These tables are given in Section C. Part 1 and C. Part 2.

### 2 STAFFING COSTS

In Chapter B the staffing schedule is shown on Part 1, Table 1 and Table 2, and Part 2, Table 1.
